PROFESSIONAL PROFILE

Computer Science graduate with an Upper Second Division (2.1) honours degree from the National University of Science and Technology and two years of practical experience at the university's Technovation Centre. Experienced in software development and laboratory technical support, with academic and certified training in web development, databases, algorithms, artificial intelligence and information security. Deployed a live web project and is developing additional software. Analytical, adaptable and committed to building reliable, user-focused systems.

TECHNICAL COMPETENCIES

Software Development	Web & Data	Computing Foundations
JavaScript	Backend web development	Artificial intelligence
Node.js & Express	Database systems	Cybersecurity & auditing
Software engineering	Enterprise data management	Computer networks
Data structures & algorithms	Systems analysis & design	Operating systems

PROFESSIONAL EXPERIENCE

Software Developer & Lab Technician | 2024–2026

Technovation Centre, National University of Science and Technology (NUST)

- Completed two years of practical work experience, including the university attachment year.
- Contributed to software development activities while providing laboratory technical support.

SELECTED PROJECT

ZIMSCORE Web Platform | Zimscore

- Deployed a software project to a vercel domain, taking a solution from development to an online environment.
- Additional software projects currently under development.
